Chorus Call and Aethra.net join forces for the development of the unified communications market

Milano – Ancona, April 5, 2011: Chorus Call Italia s.r.l., a subsidiary of Chorus Call Inc., a leading teleconference provider located in the United States with satellite offices throughout the world, has acquired controlling interest in Ae.net s.r.l. (Aethra.net), an Italian company that operates successfully in the remote collaboration and value-added services markets.

“With this important agreement, both companies will benefit from a wider range of innovative services and a greater presence and capability in the world market,” said Giovanni Beltrami, Managing Director of Chorus Call Italia. “Ae.net’s historical skills in the areas of audioconferencing and videoconferencing, as well as its significant customer base, make this new organization an important player in the market of unified communications.”

“We are truly pleased and proud of the participation of an industrial partner such as Chorus Call,” says Elena Viezzoli, Managing Director of Ae.net. “Chorus Call is a company with offices around the world that utilizes the technology of Compunetix Inc., a global leader in the development, production, and marketing of audio, video, and web collaboration platforms.”

Ae.net specializes in the field of remote collaboration and offers meeting services including multipoint audioconferencing, videoconferencing, webcasts, and webconferencing. In addition, Ae.net is also the exclusive distributor in Italy for videoconferencing products from CeeLab, a Norwegian VC vendor, via OEM and distributor agreements with Sony.
